- 620890 ø 53mm
- 620891 ø 57,5mm
- 620892 ø 58,3mm
- 620893 ø 58,5mm

'Style' Wodden-stainless steel tamper with soft convex base

Made by Nuova Ricambi.

- 620872 ø 57.5mm
- 620873 ø 53mm

Alluminium Tamper

Made by Nuova Ricambi.

- 620438 ø 58mm
- 620439 ø 53mm
- 620444 ø 51mm
- 620445 ø 49mm

Adjustable polished stainless steel dynamometric tamper

Made by Nuova Ricambi.

Ideal for a constant pressure on ground coffee. Adjustable pressure 11-14 kg. It allows the use of coarser ground coffee, resulting in the coffee heating up less and the burrs lasting longer.

- Aluminium Disc

615793

CHARACTERISTICS

1. Able to measure and manage even the slightest differences in concentration: displays up to the 2nd decimal
2. Stable and reliable measurements even from freshly brewed, hot coffee: automatically detects temperature stability
3. Hygienic design: can be fully washed under running water

SPECIFICATIONS

- Model: PAL-COFFEE (BX/TDS)
- Scale: Brix TDS Temperature
- Measurement Range: Brix : 0.00 to 25.00%; TDS : 0.00 to 22.00%; Temperature : 10.0 to 100°C
- Resolution: Brix : 0.01%; TDS : 0.01%; Temperature : 0.1°C
- Measurement Accuracy: Brix : $\pm 0.10\%$; TDS : $\pm 0.15\%$; Temperature : $\pm 1^\circ\text{C}$
- Temperature compensation range: 10 to 100°C
- Ambient Temperature: 10 to 40°C
- Sample Volume: At least 0.3ml
- Measurement Time: Approx. 5 seconds - 120 seconds of continuous measurement
- Power Supply: Two (2) AAA alkaline batteries
- Battery Life: Approx. 11,000 times measurement (when alkaline batteries are used)
- International Protection Class: IP65 Dust-tight and Protected against water jets
- Dimensions & Weight: 55(W) x 31(D) x 109(H)mm, 100g (main unit only)

Burrs Food Friendly

1° Reliability : our grinding burrs do not undergo deformations, thanks to the particular heat treatment they have been subjected; they **settle** right after the first grinding, not needing other setting time during the first setup.

2° Lifespan : these grinding burrs are realized with a special steel and they undergo particular processing and heat treatments which ensure a **longer life of 70%** compared to a standard grinding burr produced in hardened and tempered steel 18NiCrMo5.

3° Less contamination : these new grinding burrs have been expressly created so that **the ground coffee has only a minimal contamination** coming from the detachment of surface residuals of metal parts, as certified in the documents.

Coffee Bean Roasting System 'Gene Café'

702507 Coffee Bean Roasting System 'Gene Café'
702507/11 Coffee Bean Roasting System 'Gene Café' 120 V
 Mixing Off-axis rotation system (radiant heat)
 Heating Convection
 Cooling Normal temperature forced blow (approx 10 min)
 Temperature range 190 - 250 °C
 Temperature control 0 - 250 °C by an electronic thermostat
 Heater capacity 1000W
 Power source AC 100V-110V-120V-220V-230V-240V- 50/60 Hz
 Consumption current 1000W
 Chamber materials Heat resistant glass tube (pyrex)
 Chamber capacity 300g (max 350g) - 8.8oz (max 10oz)
 Noise 65 dB
 Dimension 383 x 243 x 229 mm (15 x 9.6 x 9 inches)
 Net weight 5.5kg (12lb)
 Colour Black

Patented 3D rotation

Gene Café's unique mixing rotation system features off-axis rotation to ensure even distribution of the beans and better heat circulation during the roasting process.

Automatic cooling function

The Gene Café automatically switches from roasting to cooling, and temperature sensors control the cooling process. An audible tone lets you know when the cooling cycle has completed.

Removable bisected roasting chamber

The divided roasting chamber efficiently distributes the beans as they roast. Ensuring even heat flow and efficient cooling. Gene Café roasters come with a chamber stand to safely and securely hold the chamber upright for convenient filling and cleaning.

Cybernetic sensor safety system

In the event that the Gene café's roasting temperature exceeds a preset upper limit, the heater will automatically shut off.

High efficiency chaff removal

Perforations in the roasting chamber divider panel help to gently remove chaff, a thin membrane surrounding the bean, and whisk it away into a spacious collection chamber that is easy to detach and empty.

Full range roasting

Gene Café can roast beans to any of the eight roast levels commonly referred to by coffee roasting professionals: Light, Cinnamon, Medium, High, City, Full City, French and Italian.

Fast response heat control

A simple dial provides precise control over the nickel chrome coil heater for accurate roasting temperature while an LED display shows both the set and actual temperatures.

At home on the kitchen counter

Sleek Eurostyle design and a small footprint make the Gene Café an attractive addition to any kitchen or showroom.

Dynamic roasting and cooling

A second control knob makes it a snap to change the roasting cycle time on the fly. Manually switching from roasting to cooling is as easy as pressing a button. Digital displays show roasting time and cooling status.

Clear roasting chamber and safety cover

Being able to see the beans during roasting makes it easy to tell when you want to make time or temperature changes on the fly. The hinged safety cover helps to isolate the roasting chamber.

New Kit Professionale Coffee Test

The kit has all the tools a coffee salesman requires.

Codes are related to the suitable filter holder with manometer for your espresso machine.

The kit includes: a pirex shot glass, a thermometer, a digital scale, a filter holder with manometer, thermometer connection and dose, a plastic tamper, a plastic spoon, a 'Smart' brush, a blind filter, a tub of Clean Express tablets and a water hardness test kit.

Enrico Maltoni Collection's Books

200003

Espresso made in Italy 1901-1962

Enrico Maltoni's Collection gives shape to the first publication that traces the history of espresso coffee machine; from his invention to the 60's designs, through a century of technical and functional evolution.

200026

Faema Espresso 1945-2010

The first book that tells Faema's real story from its establishment till today, going through personal events to business ones. The book is filled with stories about its founder Carlo Ernesto Valente, told by his family and people that knew him. Patents, technical diagrams, original flyers together with unpublished photographs. Faema's stunning vintage espresso coffee machines will visually guide you through the book.

200079

Coffeemakers

A unique encyclopaedia of coffee makers packed with information: 2700 images, 2080 technical descriptions and countless texts split into various historical periods. This book features all the different kinds of coffee makers produced to date, photographed in the homes of collectors from all over the world.
